PARALLEL SESSIONS

There are four parallel sessions, and each participant can select one activity per session. The parallel sessions include two types of activities:

Presentation (P)

A presentation involves the speaker discussing a specific topic. It should last 30 to a maximum of 45 minutes and include time for questions and answers as well as a discussion with the participants. **(Low to medium interactive)**

Workshop (W)

A workshop begins with a brief introduction to the topic and allows for comments from the participants (approximately 10 minutes). This is followed by discussions in small working groups (20 minutes), the outcomes of which are then presented by the groups (15 minutes). Finally, the results are discussed in the plenary session. **(Medium to very interactive)**
